

Maytag® Compact Front-Load Washer And Dryer

Compact in size — not capacity.

This Maytag® compact laundry pair fits in tight spaces, under counters or stacked.

Compact Exterior

Measuring just 23½" wide by 24" deep by 33¼" high*, the new Maytag® compact front-load washer and dryer fit in tight spaces to take up even less of your precious floor space.

Large Capacity

They save space on the outside, but inside, the pair can easily handle your everyday-sized loads — they each hold up to 16 bath towels.

High Efficiency

High-efficiency wash system saves up to \$145 every year by using less water and electricity. Fast spin speeds reduce drying time and energy costs.**

Powerful Cleaning

The TurboClean wash system cleans without an agitator. The wash tub gently tumbles clothes through a pool of detergent and water, while waterfall baffles scoop water and shower it onto laundry for outstanding cleaning.

* With ½" adjustable leveling legs. Actual dryer depth is 23¾". Control panel adds 2" to washer depth.

** Based on D.O.E. test method compared to a competitive conventional top-load washer, 10 loads per week, average water and sewer rates and 2000 electrical energy rate. Savings will vary depending on utility rates, model replaced and usage.

MAYTAG® COMPACT FRONT-LOAD WASHER AND DRYER

Compact Front-Load High-Efficiency Washer Model MAH2400

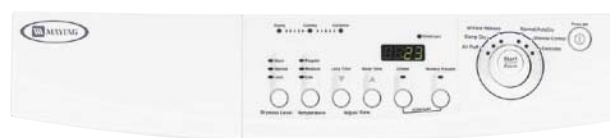

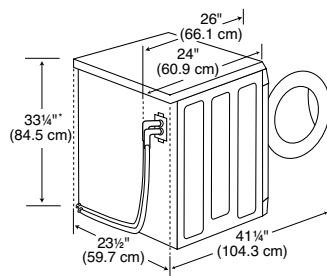

- Compact Exterior (23½" W x 24" D x 33¼" H)*
