Features & Benefits

**Ergonomic**  
DishDrawer™ dishwashers are as easy to open and close as kitchen drawers and can be conveniently positioned at counter height so loading and unloading requires minimal bending.

**True Half Load**  
Each drawer holds a true half load for guilt-free small washes and fast turnaround of your dishes. Both drawers operate independently so different wash cycles can operate simultaneously to accommodate a variety of loads.

**Reliable Performance**  
The combination of intelligent technology and simple mechanics means more space for your dishes, greater reliability and excellent wash performance.

**Easy to Load**  
DishDrawer™ dishwashers include a range of flexible racking options. The cutlery basket can be customized for different utensils. Folding tines can be folded flat to accommodate a full load of pots. Pitch-adjustable tines can accommodate normal plates, deep bowls or slide completely out of the way. Height-adjustable cup racks allow for different shapes and sizes and provide wine glass supports.

**A history of innovation**  
Find out what inspired the world's first dishwasher in a drawer 20 years ago and the incredible journey that followed.
