

DD24SDFX7

Single DishDrawer™ Dishwasher incl full flex racking

We imagined the ideal dishwasher...and the concept of the DishDrawer™ was born. Years of research and refinement have created an appliance that offers a compelling blend of form and function. Each drawer is independently operated, allowing you to wash small loads as economically as large ones. DishDrawer lets you match the wash programme to the contents, so dishes are better cared for.

Features & Benefits

Convenient

You can fit plates up to 11.5" in diameter and long stemmed wine glasses in this model. The racking and fold down tines have been designed to be adjustable for different wash requirements.

Efficient

This Energy Star™ approved model has the choice of nine wash programs to wash everything from fine glass and crystal to heavily soiled pots and pans at the touch of a button and the Eco options minimize water and energy usage. The superior filtration system keeps debris from blocking the dishwasher and is removable for easy and hygienic cleaning.

Innovative

Before washing begins, detergent passes through the world's first flow-through dispenser to ensure it is thoroughly dissolved, providing a faster, more hygienic wash with no hint of detergent burn.

Ergonomic

The DishDrawer™ is as easy to open and close as a kitchen drawer and conveniently positioned at countertop height so loading and unloading requires minimal bending. Easy-to-use folding tines allow you to place large pots, platters and bowls into the drawer with ease.

Safe

The DishDrawer™ has a Child Lock that both locks the drawer to prevent opening as well as disabling the buttons.

Ecofriendly

This dishwasher uses only 2 gallons of water on a Normal Eco wash program and is ENERGY STAR rated CEE tier 1 for energy efficiency and cleaning and drying performance.

A history of innovation

Find out what inspired the world's first dishwasher in a drawer 20 years ago and the incredible journey that followed.

Meet the maker

Watch Mike Jensen, General Manager of Industrial Design, explain the idea behind the DishDrawer™ Dishwasher.
