Features & Benefits

- Convenient**
This model is taller than the standard DishDrawer™ dishwasher, so you can fit in large plates up to 13" in diameter. Racking is designed to hold long utensils and can fold away to free up space.
- Efficient**
This model has the choice of nine wash programs, including Eco options to minimize water and energy usage.
- Innovative**
Before washing begins, detergent passes through the world's first flow-through dispenser to ensure it is thoroughly dissolved, providing a faster, more hygienic wash with no hint of detergent burn.

- Ergonomic**
The DishDrawer™ is as easy to open and close as a kitchen drawer and conveniently positioned at countertop height so loading and unloading requires minimal bending. Easy-to-use folding tines allow you to place large pots, platters and bowls into the drawer with ease.
- Safe**
For added safety, a key lock and child lock are included and DishDrawer™ has three stage flood protection.
- Ecofriendly**
This dishwasher uses only two gallons of water on a Normal Eco wash program and is ENERGY STAR rated CEE tier 1 for energy efficiency and cleaning and drying performance.

- A history of innovation**
Find out what inspired the world's first dishwasher in a drawer 20 years ago and the incredible journey that followed.
- Meet the maker**
