Features & Benefits

Convenient

You can fit large plates up to 12 7/16" in diameter, as this model is taller than the standard DishDrawer™ dishwasher. Racking is designed with flexible and adjustable racking options for different wash requirements.

Efficient

This model has the choice of nine wash programs to wash everything from fine glass and crystal to heavily soiled pots and pans at the touch of a button and the Eco options minimize water and energy usage. The superior filtration system keeps debris from blocking the dishwasher and is removable for easy and hygienic cleaning.

Innovative

Before washing begins, detergent passes through the world's first flow-through dispenser to ensure it is thoroughly dissolved, providing a faster, more hygienic wash with no hint of detergent burn.

Ergonomic

The DishDrawer™ is as easy to open and close as a kitchen drawer and conveniently positioned at countertop height so loading and unloading requires minimal bending. Easy-to-use folding tines allow you to place large pots, platters and bowls into the drawer with ease.

Safe

The DishDrawer™ Wide has a Child Lock that both locks the drawer to prevent opening as well as disabling the buttons.

Ecofriendly

This DishDrawer™ uses only 3.6 gallons of water on a Normal Eco wash program and is ENERGY STAR rated CEE tier 1 for energy efficiency and cleaning and drying performance.

A history of innovation
