Height	42 - 43"
Width	27"

Features & Benefits

SmartTouch™ Controls

Simple SmartTouch™ controls give you a choice of 6 drying cycles, 3 drying temperatures and 3 dryness levels for perfect control over how you want your clothes dried.

Durable Work Surface

The powder coated steel top provides a durable and chemical resistant work bench.

Dryness Sensing

Three heat settings are used to ensure clothes don't get too hot. The heat is turned down as the load becomes dry preventing shrinkage and damage. The dryer automatically turns off when it senses the right level of dryness has been reached.

Easy Loading

A large door opening and powerful interior light makes loading and unloading easy. The door has been designed to be reversible to suit your laundry space.

Designed to Match

This dryer has matching SmartTouch™ Control panel and aesthetic with the Fisher & Paykel AquaSmart WL4027G Top Loader, or the WashSmart WA3927G Top Loader.
