Width	B 27"

Features & Benefits

SmartTouch™ Control Dial

Delivering the ultimate laundry experience using a quality stainless steel dial that is both robust and precise, the SmartTouch™ control dial requires just fingertip control. As you turn it, the icons illuminate to show you exactly what you have selected. All printing is molded into the fascia so it will never wear off.

Durable Work Surface

The work surface is made of toughened glass on top of an injection molded base, making it our most chemical and scratch resistant surface.

Steam Cycles

Two refreshing steam cycles de-wrinkle and refresh garments without excessive power consumption. Perfect when you want to remove unpleasant smells from garments without washing them or you simply want to freshen them after prolonged storage.

Drying Rack

Some things are just too precious to tumble so we have provided a rack to take care of them.

Designed to Match

This dryer has matching SmartTouch™ Dial and aesthetic with the Fisher & Paykel AquaSmart WL4027P Top Loader.
