- DWT 58500 B: Black
- DWT 58500 SS: Stainless steel
- DWT 58500 FBI: Fully integrated

FEATURES

14 Place settings

Blomberg dishwashers can perfectly clean dishes upto 14 place settings without leaving any piece of cutlery out.

Power Wash

Creates a power zone in the right hand side of the lower rack by providing intense water pressure. This specially designed 180 degree rotating spray arm with a 360 degree rotating head, helps water reach every single angle to clean heavily soiled pots and pans. This feature provides up to 5 times improved cleaning based on Pots&Pans+ program.

Auto Tablet

Sensors detects rinse aid and automatically sets drying cycle duration. This provides the best drying results without any concern.

Mixwash+

It is the most suitable washing programme for daily mixed dishes including plastic items. While delicate glass items are washed in the upper basket, pans and trays can be washed in the lower basket.

Brushless DC™ motor

Variable speed circulation motor allows to use optimum necessary amount of water and energy. Due to magnetic design the motor has no persistent low frequency sound, and creates less vibration.

Double motion float system

All Blomberg dishwashers have a double motion float system (DMFS) that provides maximum security against water damage and a bottom tray to prevent flooding.
