3.9 cu ft WashSmart™
Top Load Washer with
Flexible finned Agitator

Our 3.9 cu ft WashSmart uses SmartDrive™ technology and our flexible finned agitator to deliver ultimate load sensing and clothes care. With its Eco-Active™ wash it saves energy while achieving a great clean. Infinite water level sensing means it can wash small loads and large loads extremely efficiently. A perfect pair to the AeroCare G dryer.

Features & Benefits

SmartDrive™ Technology

A set of mechanical and electronic parts including a Direct Drive Motor, Floating Bowl and Motor Controller, form a mechanically simple washer that can sense and respond to each and every clothes load. Providing better clothes care and reliability with no belts, pulleys, gearboxes, clutches or brakes.

SmartTouch™ Controls

Simple SmartTouch™ controls give you a choice of 6 wash cycles and 5 wash temperatures. This machine lets you choose the water level you want or it will do it for you.

22 LB Capacity

These large 22 LB capacity washers save you time and money, requiring fewer loads to wash your week's laundry. Infinite water level sensing makes these washers very efficient with both small and large loads. The big basket will easily wash bulky items like comforters and blankets.

Eco-Active™

Eco-Active™ wash boosts soil removal while saving energy. Its unique pumping technology re-circulates water and detergent through the clothes in a cascade-like pattern. This rapidly removes stains and dirt and is proven to be more effective at killing bacteria. The Eco-Active™ wash saves energy, but best of all it achieves a better clean.

Durable Steel Lid

The durable steel lid is made of powder coated steel that won't chip and is resistant to chemical corrosion. Opening and closing is counter-balanced to deliver better ergonomics and hands free operation.
