

French Door Refrigerators

EI27BS26J S, EI27BS26J W, EI27BS26J B

Featuring IQ-Touch™ Electronic Controls

Most Usable Capacity¹

Most usable space inside, same space on the outside, so you'll have space for everything from party platters and beverages to kids' snacks and juice boxes.

IQ-Touch™ Controls

For those who like to have their options always visible, the IQ-Touch™ control panel displays your options at all times.

Luxury-Glide® Cool Zone™ Drawer

This drawer keeps contents chilled, so it's perfect for wine and beer or even snacks and juice boxes.

SpillSafe® Sliding Glass Shelves

SpillSafe® glass shelves slide out for easy access and are designed to keep spills contained, making cleanup a breeze.

Electrolux

Standard-Depth French Door Refrigerator Specifications

- Product Weight – 360 Lbs.
- An electrical supply with grounded three-prong receptacle is required. The power supply circuit must be installed in accordance with current edition of National Electrical Code (NFPA 70) and local codes & ordinances.
- Voltage Rating – 120V/60Hz/ 15 or 20 Amps
- Connected Load (kW Rating) @ 120 Volts = 1.02kW
- Amps @ 120 Volts = 8.5 Amps
- Always consult local and national electric & plumbing codes.
- Floor should be level surface of hard material, capable of supporting fully loaded refrigerator.
- When installing refrigerator adjacent to wall, cabinet or other appliance that extends beyond front edge of unit, 20" minimum clearance recommended to allow for optimum 120° to 180° door swing, providing complete drawer/crisper access and removal. (*Absolute 4-1/2" minimum clearance will ONLY allow for 90° door swing which will provide drawer/crisper access with restricted removal.*)
- To ensure optimum performance, avoid installing in direct sunlight or close proximity to range, dishwasher or other heat source.
- For proper ventilation, front grille MUST remain unobstructed.

- Recess electrical outlet when possible.
- Water recess on rear wall recommended to prevent water line damage.
- Water Pressure – Cold water line must provide between 30 and 100 pounds per square inch (psi).
- Copper tubing with 1/4" O.D. recommended for water supply line with length equal to distance from rear of unit to household water supply line plus 7 additional feet. Optional Water Supply Installation Kits available.
- Adjustable front rollers to assist with door alignment.

"Built-In Look" Specifications

- Minimum opening of 70-1/4" H x 36" W x 28-7/8" D required to allow for ease of installation, proper air circulation, and plumbing/electrical connections.
- Remove all wall/floor molding prior to installation.

Note: For planning purposes only. Refer to Product Installation Guide on the web at electroluxappliances.com for detailed instructions.

General Installation Guidelines

with French Door Refrigerator

Use these dimensions and clearance instructions for planning purposes only. For detailed installation instructions, refer to installation guide, packed with product, or on the web at electroluxappliances.com.

Front

When installing appliances adjacent to each other, 20" minimum distance between each appliance required.

When installing built-in cooking appliances in combination, 2" minimum visible gap between appliance faceplates required.

Top

When installing refrigerator adjacent to wall, cabinet or another appliance that extends beyond front edge of unit, 20" minimum clearance recommended to allow for optimum 120° to 180° door swing, providing complete drawer/crisper access and removal.

When installing appliance with sliding drawer or drop-down door directly across from obstructions, provide sufficient clearance for drawer extension or door swing.

Front

To ensure optimum performance, avoid installing refrigeration appliances in direct sunlight or near heat source.

Top

When installing appliance with side-swing door adjacent to wall, cabinet, or other obstruction that extends beyond front edge of appliance, door swing and handle clearance must be sufficient to allow access to appliance interior.

When installing appliance with sliding drawer or drop-down door directly across from obstructions, provide sufficient clearance for drawer extension or door swing.

When installing appliance with sliding drawer or drop-down door adjacent to wall, cabinet, or other obstruction that extends beyond front edge of appliance, allow 2" minimum clearance between drawer or door and obstruction.
