

Refrigerator SHABBOS KEEPER

100% Shabbos Certified Through 2050

GE APPLIANCES

Certified Product

NOTICE: Installation should be completed at least 24 hours prior to Sabbath so that the Shabbos Keeper has sufficient time to update the refrigerator software. The Shabbos Keeper needs to be plugged into the refrigerator at all times to ensure seamless operation. Use the magnetic back to place the Shabbos Keeper in a convenient location. Be careful not to damage the Shabbos Keeper when moving the refrigerator.

- 1 Remove the Shabbos Keeper and communication cable from the packaging. Plug one end of the communication cable into the Shabbos Keeper.

- 3 The Shabbos Keeper will perform a software update and display the screen below. This will take approximately 15 minutes. Your refrigerator may restart during this process. Do not disconnect power to the refrigerator during this time.

UPDATING
SOFTWARE
...

- 2 Plug the other end of the communication cable into the refrigerator. The communication port on the refrigerator is located on top of the case and behind the doors. You may have to remove a plastic plug from the port before installing cable.

Reversed view of
communication port.

- 4 After installation is complete, your Shabbos Keeper is ready to be set up. Use the left and right arrow buttons to move the cursor and use the up and down buttons to input today's date. Press enter (middle button) once completed.

- 5 Use the buttons on the Shabbos Keeper to enter the current time. Press enter (middle button) once completed.

- 6 Use the up and down buttons on the Shabbos Keeper to select your city and state. For each, press enter (the middle button) once you have found it.

- 7 If your city is not listed, you may enter the geographic latitude and longitude coordinates directly.
